## GRAMMAR

### Lesson #23 - ワ、ヲ、ン

#### ワ number of strokes: 2

Remember フ? フ looks similar, but it has an extra line here.

#### ヲ number of strokes: 2

Another one that looks like フ, but this time with a horizontal line inside.

#### ン number of strokes: 2

Like its hiragana counterpart, it is the only character that represents only a consonant. No word in Japanese will ever start with

ワ	ワ	ワ			
ヲ	ヲ	ヲ			
ン	ン	ン
